

## NEW DOCTORS & NEW FACILITIES

Meet our new doctors & new facilities now serving the Naples community and beyond:

### Dr. Domingo A. Feliciano, MD, DABFP

**Board-certified Family Physician and Clinical Investigator with over 40 years of experience** in family medicine, preventive care, and clinical research. Founder of Bonita Family Care in Florida, he specializes in chronic disease management, women's health, wound care, and preventive medicine, with emphasis on cardiovascular and metabolic health. As Principal Investigator in numerous clinical trials on conditions like NASH, diabetes, and cardiovascular disease, he has advanced innovative therapies through pharmaceutical collaborations. Alongside private practice, he has held leadership roles in clinical operations, staff mentoring, and quality improvement. **A graduate of the Autonomous University of Santo Domingo, with residency at Hospital San Pablo in Puerto Rico**, Dr. Feliciano continues to blend patient care with research excellence and has been part of ARHI's investigator team.

### Dr. Humberto A. Liriano, MD

**Board-certified pediatrician with over 20 years of experience** in emergency medicine, critical care, and public health. As Chief Medical Officer of Horizon West Pediatrics Center and a pediatric emergency physician in Florida and Louisiana, he combines clinical leadership with academic excellence as an Assistant Professor at the University of Central Florida College of Medicine. **His research focuses on pediatric asthma, sedation practices, and innovative therapies for severe conditions.** A fluent Spanish speaker with multilingual skills, Dr. Liriano holds advanced degrees in medicine, public health, and economics. Since 2024, he has been a valued investigator with ARHI, dedicated to improving pediatric emergency care and promoting health equity.

### Dr. Luis J. Barata, MD / MSN / APRN / FNP-C

**Family nurse practitioner and clinical researcher with a dual background as both physician and nurse.** With over 20 years of experience spanning primary care, specialty medicine, hospice, and international practice in Chile and Cuba, he brings a global perspective to patient care. Currently serving patients in Southwest Florida through Riverside Family & Lifestyle Medicine and other practices, he also advances research as a Sub-Investigator with Riverside Research Group, focusing on asthma, COPD, diabetes, cardiovascular disease, and Alzheimer's. **Board-certified in Lifestyle Medicine, Luis emphasizes prevention, wellness, and whole-person care.** Fluent in English and Spanish, he has been a valued ARHI investigator.

### Dr. Annette "Dr. Koul" MacKoul, MD

**Respected physician, child advocate, and community leader who brings decades of experience to ARHI's team of investigators.** A graduate of Tufts University School of Medicine, she completed her residency at the New England Medical Center's Boston Floating Hospital. **Known for blending clinical practice with public education, she has shared her expertise through a weekly medical column, television appearances, and her well-known "Ask Dr. Koul" parenting feature.** Since relocating to Southwest Florida, she has supported organizations such as PACE, Girls Going Places, YMCA, Hope Hospice, and Family Initiative, while also serving as President of the Lee County Medical Society and a National Board Member of the United Mitochondrial Disease Foundation. **Her lifelong commitment to children, families, and health advocacy aligns seamlessly with ARHI's mission.**

### Dr. Shahzaib Mirza, MD

**Board-certified pediatrician and Medical Director of Starz Pediatrics in Estero, Florida,** where he provides comprehensive care to children across Lee, Collier, and neighboring counties. With **over eight years of experience** in child development, preventive health, urgent care, and intensive care, he blends clinical expertise with leadership to ensure excellence in pediatric services. **Formerly a Staff Pediatrician at Family Health Centers of Southwest Florida,** he also trained at Florida Hospital South in Orlando, completing specialized externships in emergency medicine, orthopedics, and pediatric surgery. Fluent in four languages, Dr. Mirza is actively engaged in professional associations and community initiatives, reflecting his holistic approach to child health and wellness.

## NEW MEMBERS

Welcoming **SILVIA CALVO** to ARHI!

**Experienced Clinical Research Coordinator with nearly a decade of expertise supporting clinical studies** across leading pharmaceutical companies and healthcare institutions in Costa Rica and the United States. **She has coordinated research for organizations such as Pfizer, Roche, and Merck,** contributing to multi-center trials in rheumatology and internal medicine while ensuring strict compliance with Good Clinical Practice (GCP) standards and study protocols.

Fluent in English and Spanish, Silvia combines strong clinical knowledge with organizational and interpersonal skills that enhance both patient care and study execution. Her career reflects a commitment to ethical, detail-oriented research and cross-functional collaboration, reinforced by extensive training in clinical investigation and GCP through institutions including **UCIMED, ICIMED, and Pfizer.** Alongside her research experience, **she has also served as a production coordinator in the private sector, demonstrating adaptability, leadership, and a talent for multitasking in dynamic environments.**

## ACTIVITIES

**WHY IS YOUR PARTICIPATION IN CLINICAL TRIALS IMPORTANT?**

**Educational talk by Dr. Leandro Perez**

9:00 am - 12:00 pm (CST)  
**COLLIER SENIOR CENTER**  
Golden Gate, 4898  
Coronado Pkwy,  
Naples, FL 34116,

**ARHI**

**OCT, 20th**

ARHI strengthened its community impact in Naples by **hosting an educational talk at the Collier Senior Center with Dr. Leandro Perez**, emphasizing the importance of diversity and inclusion in clinical trials. The event highlighted ARHI's active studies on cardiovascular disease, diabetes, COVID-19, COPD, and acute coronary syndrome, underscoring how community participation drives innovation. Through these initiatives, **ARHI continues to connect cutting-edge research with real-world care, ensuring a healthier future for Naples and beyond.**

**Hats, Music & A HEALTHIER TOMORROW!**

ARHI is thrilled to support this event, because while **we're advancing clinical research for future health breakthroughs**, we're also right here, celebrating our community today.

**ARHI**

**NOV, 7th**

This season, ARHI proudly supported the Neighborhood Health Clinic's annual **Neighborhood Bash: "Taking Our Hats Off to Health!"**

The event brought Naples together for live music, delicious food, and fun under the stars, all while celebrating community, compassion, and care. As a sponsor, **ARHI reinforced its dual commitment: caring for our community today and advancing clinical trials that shape the future of health.**

By blending celebration with purpose, the Neighborhood Bash marked the perfect kickoff to Naples' season and showcased how strong partnerships create healthier, brighter tomorrows.
